The Korean Automotive Industry, Volume 1 Jan 27 2022 In 1962, South Korea assembled just 1,100 new automobiles. By 1996, this total had soared to 2,812,714. What explains this remarkable growth? The answer is complex, and involves a combination of a supportive State, timely technology alliances, a skilled but historically low-paid workforce, aggressive pricing, savvy entrepreneurs, and fortuitous circumstances. Despite this amazing ascent, comparatively little has been written about the Korean auto industry in English. In the first of a two-volume set, this 11-chapter book seeks to help fill this void by providing in-depth examinations of all six of Korea's automakers from their beginnings through 1996. Uniquely written from the perspective of industry analysts at the time (without knowledge of the Asian Fiscal Crisis), the book should prove informative to practitioners, scholars, and students interested in automotive history, international political economy, Asian studies, and more. A.J. Jacobs is Professor of Sociology at East Carolina University, USA.

The Car Show May 31 2022 This e-book details the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with "motor" referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

Introduction to Sports Tourism and Event Management Aug 22 2021 The importance of Sport Tourism as a developing science and Sport Events specifically is on the increase. This is especially true when experts say that sport tourism is big business. South Africa, like most other countries, hosts thousands of sport events each year. Therefore, destinations compete fiercely not only to host these events but also to offer quality events. All this is happening despite the fact that there is a lack of properly trained sport and event managers. Therefore, the purpose of this book is to equip the reader with specific knowledge and skills about the sport and events tourism phenomenon. The book deals with a wide variety of topics, stretching from the history of sport tourism to new and globally important issues such as the greening of sport events. The book is a useful tool for both students and practitioners alike, since it also provides guidelines and case studies.

Principles of marketing Jun 07 2020 Mrketing reversed prior business logic 50 years ago and said «the customer is king», and the companies began to recognize that it was not just the product that was the most important aspect of their business. Companies recognized that consumers had a myriad of choices of product offerings and marketing was responsible to ensure that the company's products had the benefits and attributes that customers wanted and were willing to pay for. Today, considering the technology development, which influences every function of the company, the focus of the successful marketing oriented companies has changed from «the customer is king» to «the customer is a dictator!!!». However, and despite the new trends in marketing, like any social science, marketing has basic principles, and these principles need to be considered when making any type of marketing decisions. So, the major step of a student of marketing, whether it is a young university student or an experienced business executive, is to understand the principles of marketing, and reading the present book will be the first step in accomplishing this task. This book describes these basic principles of marketing, and while the authors recognize that each decision may be slightly different from any previous decision, the rules or principles remain the same. The present book presents these basic marketing principles and tries to capture the essence of practical and modern marketing today. Therefore, the purpose of Principles of Marketing is to introduce readers to the fascinating world of marketing today, in an easy, enjoyable and practical way, offering an attractive text from which to learn about and teach marketing.

Get a Name! Jul 09 2020 So many companies and brands out there in the market, it will be impossible to stand out without a great name. Just imagine, there are already more than 150,000 companies operating in a small country like Singapore. How will your brand stand out

if it doesn't have a great name? Finding a great name is also no longer easy because of the proliferation of companies and brands in our society. Chances are, the name you think of has already been registered and trademarked by someone else. So, what do you do? The 10 Rules Of Naming will show you how to create a powerful brand name in a simple, straightforward and jargon-free manner. Besides explaining the 10 rules of naming in detail, the book also covers the pitfalls of naming to avoid, binding everything together through vivid examples of how companies with great names went about creating those names.

Designated Drivers Mar 05 2020 An in-depth look at the Chinese car industry that sheds new light on the delicate nature of China's planned economy China's unprecedented growth over the last three decades, along with the recent financial crisis in the West, has raised questions about the superiority of state-led capitalism. In *Designated Drivers: How China Plans to Dominate the Global Auto Industry*, G.E. Anderson, a specialist in finance and Chinese political economics, uses the auto industry to examine how China's industrial planning works, and explores whether state involvement in the economy really is a winning formula for sustainable growth. Bringing to light the strengths and weaknesses that define the Chinese economy, Anderson finds that in some ways the government has become its own worst enemy, unable to choose between industrial competitiveness and social stability. While the economy is booming now, evidence suggests that long-term success is far from assured. Tracing the evolution of the post-Mao auto industry through thirteen case studies, *Designated Drivers* raises the difficult questions about the future of China that few people have dared to ask. Offers a unique insight into the Chinese economy through the lens of the auto industry Explores how successful the central government has been in spurring economic growth and the long-terms costs of intervention Uses case studies to illustrate China's explosive growth over the last three decades A painstakingly researched analysis of the Chinese automobile industry, *Designated Drivers* explains the risks and rewards inherent in doing business in China that anyone interested in, or already working there need to understand.

To Dakar and Back Dec 26 2021 In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted more than three thousand adventurers from all walks of life. The men and women who have taken up the "Dakar challenge" have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In *To Dakar and Back, Hacking*, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.

Catatan Sejuta Keajaiban Jun 19 2021 Kehidupan ini jika kita cermati penuh dengan keajaiban. Proses terjadinya diri kita juga merupakan keajaiban. Akal kiran manusia tak bakal terangkau begitu dahsyatnya Allah menjadikan proses kita menjadi manusia sempurna. Pun dalam kehidupan ini, banyak sekali kejadian yang rasanya tak masuk akal kiran kita, tidak mungkin bisa terjadi, namun buat Allah sangatlah mudah menjadikan semuanya. Keyakinan kita atas kuasa Allah, doa dan harapan yang terpanjatkan, kecintaan Allah kepada setiap hamba Nya lah yang mewujudkan itu semua. Di saat manusia dihadapkan dengan masalah, seolah mereka lupa bahwa ada Allah yang Maha Perkasa, ada Allah Yang Maha Pemurah, ada Allah yang bisa menolong setiap permasalahan hamba Nya. Contohnya, orang punya hutang maka pertama yang dicari bukan Allah, tapi saudara, teman, atau siapapun yang bisa menolongnya. Orang yang berharap dapat pekerjaan, maka ia datang ke kantor-kantor untuk melamar pekerjaan, namun mereka lupa bahwa Allah yang Maha mengatur segalanya. Banyak diantara kita tidak menjadikan Allah sebagai penolong utama. Jika semua sudah dilakukan dan tidak ada jalan keluar baru kemudian mengadu kepada Allah. Ya Allah tak ada jalan lagi kecuali jalan Mu, ya Allah tak ada yang bisa menolong kecuali Engkau ya Robb. Namun begitunya manusia, Allah terus melimpahkan kasih sayang Nya. Seharusnya dalam semua urusan, kita menomorsatukan Allah. Jika kita menjadikan Allah pelindung maka Allah akan melindungi kita, jika kita jadikan Allah sebagai penolong, maka Allah akan menolong kita. Kata kita itu adalah keajaiban padahal buat Allah semuanya sangat mudah. Hanya dengan Kun Fayakuun (Jadi, maka jadilah), hanya dalam sekejap mata, semuanya bisa terjadi atas izin-Nya. Sejuta keajaiban akan terus mengiring hidup kita, asal kita patuh dan tunduk kepada Nya. Kita berdoa dan berharap kepada Nya. Semoga kisah-kisah yang ada di buku sederhana ini bisa menjadikan kita semakin dekat dengan Allah yang menggenggam segala urusan. Selamat menikmati sejuta keajaiban.

China Bound, Revised Jul 21 2021 Being prepared in China, says one researcher, can mean "the difference between a headache and a productive day." Acclaimed by readers, this friendly and practical volume "now updated with important new information" offers all the details academic visitors need to make long-term stays in China productive, comfortable, and fun.

Academic opportunities have been revived in the years since the Tiananmen Square event, and the book opens with an overview of what we have learned from our academic exchanges with China, the opportunities now available, and resources for more information. To help visitors prepare for daily life, the book covers everything from how to obtain the correct travel documents to what kinds of snack foods are available in China, from securing accommodations to having the proper gift for your Chinese dinner host. Frank discussions on the research and academic environments in China will help students, investigators, and teachers from their initial assignment to a danwei, or work unit, to leaving the country with research materials intact. The book offers practical guidelines on working with Chinese academic institutions and research assistants, arranging work-related travel, managing working relationships, resolving language issues, and "perhaps most important" understanding Chinese attitudes and customs toward study, research, and work life. New material in this edition includes an expanded section on science and social science field work, with a discussion of computers: which ones work best in China, how to arrange to bring your computer in, where to find parts and supplies, how to obtain repairs, and more. Living costs, health issues, and addresses and fax numbers for important services are updated. Guidance is offered on currency, transportation, communications, bringing children into China, and other issues. Based on the first-hand reports of hundreds of academic visitors to China and original research by the authors, this book will be useful to anyone planning to live and work in China: students, researchers, and teachers and their visiting family members, as well as business professionals.
