*Stammering* Jun 27 2019 What is stammering? How does it present itself? When does it occur? Why does it happen? What are the most effective strategies you can use to help? Providing background information about stammering as well as a wide range of tools and strategies, this practical book addresses the key challenges faced at nursery and school. There are separate sections on early years, primary and secondary level and include the most common areas that teachers must consider when supporting children who lack speech fluency, including: identifying children at risk of developing a stammer how to manage incidents of stammering how to manage classroom communication and oral participation helping children to make and maintain relationships help children to manage feelings associated with stammering working alongside speech and language therapists. Recent changes to the curriculum means that there is now a greater demand on children's communication skills

than ever. This book will help you provide the necessary support to a child who stammers by offering a clear explanation of the presentation of stammering and the best ways you manage the occurrence of stammering in a range of school contexts. Full of tips and advice this book will enable teachers and other professionals to work effectively with a child who stammers. This accessible book is essential for anyone concerned about a child in their care who presents with a stammer, including teachers, student teachers, SENCOs and parents.

Agreement of Selected Judgments of Speech Proficiency of Prospective Teachers Feb 02 2020

**Speech, Language, and Hearing Disorders** Jul 09 2020 Provides information and methods for teachers to effectively meet the educational needs of children with speech, language and hearing problems.

The Listening Ear and the Teacher's Voice Apr 17 2021 This book gives teachers an understanding of speech training through specially selected exercises. The book's exercises aim to help develop clear speaking in the classroom. Methodically and perceptively used, the book will assist those concerned with the creative powers of speech as a teaching art. In Part 1, there are sections on the links between speech and child development, the speech organs, the effects of artificially produced sound on speech development, rhythm and meter, and the sound groups. In Part 2, the consonants are linked to the constellations of the zodiac and applied to classroom work. Part 3 contains: a bibliographic note from Imma von Eckhardtstein; "Introduction Motifs of the Twelve Constellations" (Fiona Tweedale); "Appendix: Live Music and Recorded Sound" (Norbert Visser); 30 references; a bibliography and a list of useful addresses and resources. (CR)

**Voice and Speech Training in the New Millennium** Oct 31 2019 Voice and Speech Training in the New Millennium is a collection of interviews with 24 of today's leading voice and speech teachers, each of whom has contributed to the advancement of the field and made today's training a cutting edge component of actor training.

Language for Learning in the Secondary School Sep 22 2021 Language for Learning in the Secondary School employs the same easy-to-use format as the best-selling Primary version of this book but has been adapted to meet the specific needs of secondary school teachers. This indispensable resource is packed full of practical suggestions on how to support students with speech, language and communication difficulties. Colour coded throughout for easy referencing, this unique book supports inclusive practice by helping you to: Identify students with speech, language and communication needs Understand how language is processed Consider roles and responsibilities at secondary level Plan a differentiated curriculum Consider the language demands across the subjects Adopt a whole school approach Make use of a wide range of positive strategies Empower students to access the curriculum. Language for Learning in the Secondary School comes complete with a wealth of photocopiable resources and activities, giving teachers and teaching assistants the confidence to help students with speech, language and communication needs more effectively in mainstream settings. It will also be an extremely useful resource for specialist teachers, speech and language therapists and educational psychologists.

Gives a practical approach to the intonation, stress, and rhythm of North American English.

**Guides to Speech Training in the Elementary School** Jun 07 2020

**Teaching Students With Communication Disorders** Aug 10 2020 Focusing on teaching students with communication disorders, the authors offer practical teaching strategies and provide brief definitions, indicators, and behaviors associated with speech and language disorders.

**Speech and Language Therapy** Jul 29 2019 Now in its second edition, Speech and Language Therapy: the decision-making process when working with children reveals how recent research and changes in health and education services have affected the decision-making process in the assessment and management of children with speech and language problems. With individual chapters written by experts in their field, this book: Illustrates how the decisions made by practitioners may vary within different work settings Shows how these decisions may need to be adapted when working with specific client groups Explores how such decisions are part of effective evidence-based practice Offers an overview of the skills required by the developing professional Provides insight into working as a newly qualified therapist in the current job market. Rigorously underpinned with current research and revised legislation, this is an important textbook for speech and language therapy students, potential students and specialist teachers in training. Speech and Language Therapy: the decision-making process when working with children will also be relevant to newly qualified therapists, therapists returning to the profession, specialist teachers and Special Educational Needs Coordinators.

**The Quarterly Journal of Speech Education** Aug 02 2022

**Speaking Up** Sep 10 2020 Just how much freedom of speech should high school students have? Does giving children and adolescents a far-reaching right of expression, without joining it to responsibility, ultimately result in an asylum that is run by its inmates? Since the late 1960s, the United States Supreme Court has struggled to clarify the contours of constitutionally guaranteed freedom of speech rights for students. But as this thought-provoking book contends, these court opinions have pitted students—and their litigious parents—against schools while undermining the schools' necessary disciplinary authority. In a clear and lively style, sprinkled with wry humor, Anne Proffitt Dupre examines the way courts have wrestled with

student expression in school. These fascinating cases deal with political protest, speech codes, student newspapers, book banning in school libraries, and the long-standing struggle over school prayer. Dupre also devotes an entire chapter to teacher speech rights. In the final chapter on the 2007 *ÖBong Hits 4 Jesus* case, she asks what many people probably wondered: when the Supreme Court gave teenagers the right to wear black armbands in school to protest the Vietnam War, just how far does this right go? Did the Court also give students who just wanted to provoke their principal the right to post signs advocating drug use? Each chapter is full of insight into famous decisions and the inner workings of the courts. *Speaking Up* offers eye-opening history for students, teachers, lawyers, and parents seeking to understand how the law attempts to balance order and freedom in schools.

*Teaching Children with Speech and Language Difficulties* May 07 2020 First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Speech Improvement Through Choral Speaking Jun 19 2021

**RTI** Oct 24 2021 Research-based speech and language interventions for the regular classroom teacher. Interventions include language processing (following one and two-step directions, answering 'wh' questions) and speech articulation sound practice. Over 70 sound practice sheets focusing on initial, medial, and final sounds included as well as easy-to-follow directions and data collection sheets. Speech in the Teaching Profession Aug 22 2021

*Improving Punctuation 8-9* Nov 12 2020 Photocopiable series featuring 15 punctuation targets, which can be displayed on the whiteboard, accompanied by three differentiated worksheet - one sheet at lower ability pupils, one aimed at the middle range and one for higher ability. Series covers all aspects of punctuation and sentence structure, ranging from the use of capital letters and full stops to the use of speech marks, quotation marks, apostrophes and bracketing commas.

**Teachers and Mental Health** Oct 12 2020 *Teachers and Mental Health* is my attempt to teach the teachers of children (teachers and parents) some of what I have learned over 40 years of doing therapy, about the rather simple, but apparently poorly understood factors in childhood thinking that go on to create a lot of mental distress by adulthood. Some of the points in this book are: Teachers teach correct speech, but most do not teach accurate speech We end up believing what we say, which is why it is so important to say it accurately We end up acting on what we believe, which is another reason why it is so important to say it accurately Children have a delusional belief system that sometimes continues throughout adult life A minimum of half of the world is in a delusional state all the time, and 98% of people respond to at least one situation in a delusional fashion one or more times during an average day. Our general understanding of the word responsible, contributes greatly to misunderstandings and poor outcomes in life Failure to understand high and low levels of abstraction in our speech (and thinking) generates mistakes in communication.

**There Was a Speech Teacher Who Swallowed Some Dice** Apr 29 2022 A wacky Speech Teacher starts swallowing everything she needs to do speech/language therapy in her school! What could possibly happen? Better look out when those dice begin to roll! "There Was a Speech Teacher Who Swallowed Some Dice" is a delightfully silly way to introduce students to many of the materials used in speech therapy, and ends with a Speech Room Scavenger Hunt.

**Speech to Print** Jul 21 2021 Reveals the connection between language structure and how students learn to read, and shows how to apply concepts of phoneme awareness, spelling, vocabulary, and comprehension in sample lesson plans and adaptations. **A Course of Study in Speech Training and Public Speaking for Secondary Schools** Jan 27 2022

**The Teacher Gap** May 31 2022 Teachers are the most important determinant of the quality of schools. We should be doing everything we can to help them get better. In recent years, however, a cocktail of box-ticking demands, ceaseless curriculum reform, disruptive reorganisations and an audit culture that requires teachers to document their every move, have left the profession deskilled and demoralised. Instead of rolling out the red carpet for teachers, we have been pulling it from under their feet. The result is predictable: there is now a cavernous gap between the quantity and quality of teachers we need, and the reality in our schools. In this book, Rebecca Allen and Sam Sims draw on the latest research from economics, psychology and education to explain where the gap came from and how we can close it again. Including interviews with current and former teachers, as well as end-of-chapter practical guidance for schools, The Teacher Gap sets out how we can better recruit, train and retain the next generation of teachers. At the heart of the book is a simple message: we need to give teachers a career worth having.
