Smart Women: The Search for America's Historic All-Women Study Clubs Sep 17 2021 Hiding in plain sight throughout America are historic, highly private women's self-education groups. These clubs are fascinating survivors from an era following the Civil War when women couldn't apply to most colleges and were told they shouldn't leave the home. In their earliest days, the study groups also contributed to the welfare of their towns - often by helping to found their town's first library-and served to get women out of the house and into the world. Today's all-women study clubs have no civic component but still

fashion their meetings as their founding great-grandmothers did, with members taking turns giving original papers. In *Smart Women*, author Ann Dodds Costello discusses her four-year quest to locate, often visit, and describe today's 100-year-old, all-women study clubs, all over America, even though they do not publicize and have no central organization or knowledge of each other. Included: an invaluable, first-ever directory of most of the book's ninety-plus clubs.

To March Or to Marry Feb 08 2021 In New York City of the early 1900s, two young women find their friendship torn apart when one of them abandons the dignified, middle-class feminism of their women's club to join suffragettes marching for the vote. Abbie struggles with issues of marriage and motherhood, while Louise seeks independence, but they need each other's help to find their voices in the contentious world of emerging women's rights. Visionary feminists Alice Paul and Harriot Stanton Blatch are among the historical figures who make their appearance in this novel about the battle for the vote and the quieter but profound influence of the women's clubs that gave women tools for changing society. To March or to Marry shows how crises in women's lives shaped both the suffrage movement and the women's club movement, critical forces in the development of feminism. One of the protagonists is based on the author's great-grandmother, whose letters contain many references to her activities with the Athenaeum Club in the Bronx. In the 21st century, women are coming into power as voters and as politicians, while protestors fighting for racial justice use strategies developed by suffragists. The events of To March or to Marry will serve as inspiration for today's women and activists

An Illuminated Life: Belle da Costa Greene's Journey from Prejudice to

Privilege Jan 28 2020 The secret life of the sensational woman behind the Morgan masterpieces, who lit up New York society. What would you give up to achieve your dream? When J. P. Morgan hired Belle da Costa Greene in 1905 to organize his rare book and manuscript collection, she had only her personality and a few years of experience to recommend her. Ten years later, she had shaped the famous Pierpont Morgan Library collection and was a

proto-celebrity in New York and the art world, renowned for her self-made expertise, her acerbic wit, and her flirtatious relationships. Born to a family of free people of color, Greene changed her name and invented a Portuguese grandmother to enter white society. In her new world, she dined both at the tables of the highest society and with bohemian artists and activists. She also engaged in a decades-long affair with art critic Bernard Berenson. Greene is pure fascination—the buyer of illuminated manuscripts who attracted others to her like moths to a flame.

Broke-Ass Women's Club Dec 21 2021 Four newly widowed women face the shock of their lives in this novel from a New York Times–bestselling “consummate storyteller” (Debbie Macomber). David Logan is a con man with four wives he plays like a deck of cards—until a car accident deals him a dead man’s hand. Now the women he lied to—who thought they were happily settled down with the man of their dreams—have their lives turned upside down by a knock on their doors. All but one of them are left penniless and about to lose their homes, and all of them are too shocked to grieve. Finding out they’d been deceived was bad enough, but coming face to face with each other at the funeral home wasn’t quite what they’d expected. Before the day was over, the first wife—the only legal one—made them an offer they couldn’t refuse... From Sharon Sala, a winner of numerous honors including the Nora Roberts Lifetime Achievement Award, this is a poignant, funny story of four women wrestling with betrayal, grief, and anger—and finding hope for the future in their unexpected friendship. Praise for Sharon Sala’s novels: “A well-written, fast-paced ride.” —Publishers Weekly “There are not many authors who can write a story with such depth and emotion.” —RT Book Reviews

The No Club Sep 29 2022 A practical guide for bringing gender equality to the workplace with a new imperative: unburden women's careers from work that goes unrewarded. THE NO CLUB started when four women who were crushed by endless to-do lists banded together over \$10 bottles of wine and vowed to

get their work lives under control. Running faster than ever, they nevertheless trailed behind their male colleagues. And so, they vowed to say no to requests that pulled them away from the work that mattered most to their careers. This book reveals how their over-a-decade-long journey and groundbreaking research uncovered that women everywhere are unfairly burdened with "non-promotable work", a tremendous problem we can - and must - solve. All organizations have work that no one wants to do: planning the office party, screening interns, attending to that time-consuming client, or simply helping others with their work. From office housework to important assignments that inevitably go unrewarded, a woman, most often, takes on these tasks. In study upon study, professors Linda Babcock (bestselling author of WHY WOMEN DON'T ASK), Brenda Peyser, Lise Vesterlund, and Laurie Weingart - the original "No Club" - document that women are disproportionately asked and expected to do this kind of work. This imbalance leaves women overcommitted and underutilized as companies forfeit revenue, productivity, and top talent. But it doesn't have to be this way. THE NO CLUB walks you through how to make small, yet important, changes to your own workload and empowers women to make savvy decisions about what they take on. At the same time, the authors illuminate how lasting change calls for organizations to reassess how they assign and reward work to level the playing field. With hard data, personal anecdotes from women of all stripes, practical self- and workplace-assessments, and innovative advice from consulting in Fortune 500 companies, this book will forever change the conversation about how we advance women's careers and achieve equality in the twenty-first century.

Margaret Fuller May 02 2020 Provides a portrait of Thoreau's editor and Emerson's friend, who was also a daring war correspondent and a crusader for women's rights who had a passion for her life's work, which was eclipsed by tragedy and scandal after her death at the age of forty.

Women in the Club Dec 09 2020 In the run-up to the 2012 presidential election, Democrats and Republicans were locked in a fierce battle for the female vote. Democrats charged Republicans with waging a "war on women," while

Republicans countered that Democratic policies actually undermined women's rights. The women of the Senate wielded particular power, planning press conferences, appearing on political programs, and taking to the Senate floor over gender-related issues such as workplace equality and reproductive rights. The first book to examine the impact of gender differences in the Senate, *Women in the Club* is an eye-opening exploration of how women are influencing policy and politics in this erstwhile male bastion of power. Gender, Michele L. Swers shows, is a fundamental factor for women in the Senate, interacting with both party affiliation and individual ideology to shape priorities on policy. Women, for example, are more active proponents of social welfare and women's rights. But the effects of gender extend beyond mere policy preferences. Senators also develop their priorities with an eye to managing voter expectations about their expertise and advancing their party's position on a given issue. The election of women in increasing numbers has also coincided with the evolution of the Senate as a highly partisan institution. The stark differences between the parties on issues pertaining to gender have meant that Democratic and Republican senators often assume very different roles as they reconcile their policy views on gender issues with the desire to act as members of partisan teams championing or defending their party's record in an effort to reach various groups of voters.

No Place for Ladies Sep 25 2019 All children learn at school the story of Florence Nightingale – the Lady with the Lamp – who heroically tended the sick during the Crimean War. But she was not the only woman in the Crimea. It is usually assumed that women did not become involved in international conflict until the First World War. But in *No Place For Ladies*, respected historian Helen Rappaport proves otherwise: numerous women were actively involved in the Crimean in a variety of ways. Four wives would be chosen to accompany each regiment of 100 men, enduring the vermin-ridden troop ships and then left to fend for themselves in the barren Crimean terrain, before combing the battlefields in search of their men. Yet the suffering of the soldiers' wives left behind was more terrible. At home, vast numbers of women – including Queen Victoria herself – knitted socks to cheer the soldiers stranded in freezing Sevastopol. Florence Nightingale had a band of unruly, often hard-drinking orderlies to control. Rejected by Nightingale, maverick black nurse Mary Seacole set up her own dispensary in the Crimea. And then there were the lady battlefield tourists, watching engagements from a safe distance in between picnics and yacht trips. This rich, colourful and fascinating picture of very different women at war, based on hundreds of rare accounts, is now available in B-format paperback. Helen Rappaport is a historian and author of *An*

The History of the Woman's Club Movement in America Aug 17 2021

Organizing Women Nov 19 2021 With the creation of the modern nation-state in the Middle East and North Africa, women have been and continue to be manipulated to represent a cultural ideal of perfect womanhood. This is often greatly at odds with the realities of women's lives and aspirations. However, individual women, through careful manipulation of gender relations, often succeed in casting aside the culturally accepted bonds which diminish their lives. Even so, women in groups are deemed unacceptable unless they conform to state mandates. In many countries in the Middle East, women are only legally permitted to form groups which are charitable organizations concerned with the welfare of the disabled or the handicapped. Clearly women in groups are perceived as a threat by the state. This challenging book examines the nature of the relationship between both women and the state and men and the state. It presents a balanced mix of theoretical and empirical research which analyzes both the formal and informal ways in which women have organized themselves, and been organized, in Arab society.

The New Bibliopolis Oct 19 2021 The late-nineteenth century in Europe was a period of profound political, social, and technological change. One result of these changes was the rise in France of an upper-bourgeois bohemian class. Many of its members stimulated interest in unique forms of artistic expression such as illustrated books. On account of their influence, an atmosphere of intense bibliophilic activity came to define French culture at the turn of the century. The New Bibliopolis explores the role of amateurs in promoting the book arts in France during this period. Drawing on extensive original research, Willa Z. Silverman looks at the ways in which book collectors supported print culture. She shows how, through the admiration demonstrated by collectors for this medium, print came to be a crucial part of popular conceptions of aesthetics. As collectors, publishers, authors, designers, and directors of bibliophile societies, reviews, and small presses, these book lovers became passionate and prolific interlocutors of the printed word in a uniquely artistic epoch. Silverman analyzes subjects as diverse as the relationship between book collecting and aesthetic and cultural currents such as Symbolism; the gendered nature of book collecting; the increased collaboration between

authors and illustrators; and the marketing of fine books at international exhibits. The New Bibliopolis is an important contribution to the study of book history, French sociocultural history, and fine and decorative arts.

Work. Love. Body. Aug 05 2020 In 2020, the lives of Australian women changed irrevocably. With insight, intelligence and empathy, Jane Gilmore, Santilla Chingaipe and Emily J. Brooks explore this through the lenses of work, love and body, and ask: Will the Australia of tomorrow be more equal than the one we were born into? Or will women and girls remain left behind? While our country was shrouded in smoke in the early months of 2020, Australian women went about their daily business. They worked, studied, cleaned, did school runs, made meals. And they postponed looking after themselves because life got in the way. Then, in March, Australians were told to lock down. For all the talk of equality, it was primarily women who held the health of our communities in their hands as they took on the essential jobs to care, to nurse and to teach, despite an invisible danger. One year later, women across the country would march on behalf of those who were not safe in workplaces and their own homes. Never before has change been thrust so abruptly on modern Australian women - 2020 impacted our working lives, relationships and our health and wellbeing. And as a growing number of women agitate for change, it is time to demand what women want. So where do we go from here? One thing is very clear: the future is now, and it is female.

Book Clubs Oct 31 2022 Book clubs are everywhere these days. And women talk about the clubs they belong to with surprising emotion. But why are the clubs so important to them? And what do the women discuss when they meet?

To answer questions like these, Elizabeth Long spent years observing and participating in women's book clubs and interviewing members from different discussion groups. Far from being an isolated activity, she finds reading for club members to be an active and social pursuit, a crucial way for women to reflect creatively on the meaning of their lives and their place in the social order.

Intimate Practices Feb 20 2022 Women's clubs at the turn of the century were numerous, dedicated to a number of issues, and crossed class, religious, and racial lines. Emphasizing the intimacy engendered by shared reading and writing in these groups, Anne Ruggles Gere contends that these literacy practices meant that club members took an active part in reinventing the nation during a period of major change. Gere uses archival material that documents club members' perspectives and activities around such issues as Americanization, womanhood, peace, consumerism, benevolence, taste, and literature and offers a rare depth of insight into the interests and lives of American women from the fin de siècle through the beginning of the roaring twenties. *Intimate Practices* is unique in its exploration of a range of women's clubs -- Mormon, Jewish, white middle-class, African American, and working class -- and paints a vast and colorful multicultural, multifaceted canvas of these widely-divergent women's groups. - Publisher.

Women, Clubs and Associations in Britain Jul 28 2022 Women have been

consistently excluded from all manner of clubs and associations over the years, whether as the direct result of an anti-woman policy or indirectly through prohibitive entry requirements, social constraints, or conflict of interests and tastes. Retaliation from women has taken two directions: some women have set up their own exclusive clubs that reflect their own interests and aims, while others have taken on the men and striven to break down resistance to their joining 'men's' clubs on an equal footing. This book traces the development of the current situation, drawing from a wide range of sources, some of which have never been published before. Looking at the different types of clubs and associations that include women and girls from the WI to the Girl Guides, this book is a rich social history full of fascinating observations and stories, and will be absorbing reading for anyone interested in sociology, women's history or the transformation of Britain's social life.
