New Age Spirituality Jul 01 2022 New Age and holistic beliefs and practices - sometimes called the "new spirituality" - are widely distributed across modern global society. The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis. Rather than treating new age as an exotic specimen on the margins of 'proper' religion, "New Age Spirituality" examines these movements as a form of everyday or lived religion. The book brings together an international range of scholars to explore the key issues: insight, healing, divination, meditation, gnosis, extraordinary experiences, and interactions with gods, spirits and superhuman powers. Combining

discussion of contemporary beliefs and practices with cutting-edge theoretical analysis, the book repositions new age spirituality at the forefront of the contemporary study of religion.

The Light That Was Dark Sep 22 2021 The Light That Was Dark is a sober warning to the world and to the Church. Author Warren Smith learned some hard lessons as a spiritual seeker. Smith's spiritual trek took him deep into the California subculture of alternative New Age spirituality. He was ""led"" to various New Age teachers and teachings that seemed to promise new wonders and a deeper sense of spiritual fulfillment to satisfy his ever-intensifying spiritual yearnings. Just as everything seems to be coming together for Smith, several unexpected jolts and twists occur in his life. Concerned that today's Church is being seduced by the same false teachings and same false Christ that drew him into the New Age, Smith shares his story.

Deceived by the New Age Jun 07 2020 When the dazzlish spirit-being appeared to him during his morning meditation, Will Baron thought it was Jesus Christ. He was wrong. Deceived by the New Age is unlike any book you've read about the New Age movement. It is the chilling firsthand account of Will Baron's life as a New Age Priest. Of shocking encounters with a false Jesus. And of a master plot to infiltrate Christian Churches with "another gospel". More than a testimonial, Deceived is an urgent warning to Christians that the "Mastermind" behind this movement is preparing to unleash the greatest deception ever to confront humankind. Currently residing in southern California, Will Baron believes his mission is to warn people of New Age philosophies and practices that are beginning to infiltrate Christianity. His story has been aired on more than 800 radio stations though syndicated talk shows, numerous televised interview programs, and on Pat Robertson's "700 Club. - Introduction. The New Age of Empire Jan 27 2022 "If you want to get beyond gestures and slogans and to the truth, this is the book to get you there" Russell Brand "Kehinde Andrews is a crucial voice walking in a proud tradition of Black radical criticism and action" Akala "An uncompromising account of the roots of racism today" Kimberlé Crenshaw "This clear-eyed analysis insists upon the revolutionary acts of freedom we will need to break out of these systems of violence" Ibram X. Kendi The New Age of Empire takes us back to the beginning of the European Empires, outlining the deliberate terror and suffering wrought during every stage of the expansion, and destroys the self-congratulatory myth that the West was founded on the three great revolutions of science, industry and politics. Instead, genocide, slavery and colonialism are the key foundation stones upon which the West was built, and we are still living under this system today: America is now at the helm, perpetuating global inequality through business, government, and institutions like the UN, the IMF, the World Bank and the WTO. The West is rich because the Rest is poor. Capitalism is racism. The West congratulates itself on raising poverty by increments in the developing world while ignoring the fact that it created these conditions in the first place, and continues to perpetuate them. The Enlightenment, which underlies every part of our foundational philosophy today, was and is profoundly racist. This colonial logic was and is used to justify the ransacking of Black and brown bodies and their land. The fashionable solutions offered by the white Left in recent years fall far short of even beginning to tackle the West's place at the helm of a racist global order. Offering no easy answers,

The New Age of Empire is essential reading to understand our profoundly corrupt global system. A work of essential clarity, The New Age of Empire is a groundbreaking new blueprint for taking Black Radical thought into the twenty-first century and beyond.

New Age in Norway May 19 2021 This volume investigates "alternative" spiritualities that increasingly cater for the mainstream within the secularized society of Norway, making Norwegian-based research available to international scholarship. It looks at New Age both in a restricted (*sensu stricto*) and a wide sense (*sensu lato*), focusing mainly on the period from the mid-1990s and onwards, with a particular emphasis on developments after the turn of the century. Few, if any, of the ideas and practices discussed in this book are homegrown or uniquely Norwegian, but local soil and climate still matters, as habitats for particular growths and developments. Globalizing currents are here shaped and molded by local religious history and contemporary religio-political systems, along with random incidences, such as the setting up of an angel-business by the princess Martha Louise. The position of Lutheran Protestantism as "national religion" particularly impacts on the development and perception of religious competitors.

The New Age Is the New Cage: Unveiling Spiritual Falsehood and Hidden Darkness of the New Age Deception. Jul 29 2019 There is, without doubt, a spiritual awakening taking place on the Planet right now. People in their droves are starting to understand that they are so much more than just a physical body roaming around lost. There is a new self-awareness taking place as people are starting to find their spiritual identities. As exciting as this sounds, and it really is wonderful, there are many pitfalls and cul-de-sacs along the 'New Age' path to be very wary of. This spiritual awakening is something that the 'powers that shouldn't be' have been aware of for many years, and the architects of the current control system we live under know that if we figure out that we are a lot more than just worker bees for the system then it threatens their own power. This New Age scene now seems to be littered with bypassing, avoidance, ego and blindly following anything that makes us feel good. In my opinion, this new kind of pseudo-spirituality is not getting to the root causes of our problems. With many years of working in and around this arena, I can see first hand the potential pitfalls taking place. By reevaluating and in some cases dismantling some of these rigid beliefs found within the New Age, we can move forward with what I would call 'streetwise spirituality.' We also need to take note of the metaphysical realms and the manipulations going on in that dimension which I break down in the book. Only once we have faced the darkness in both ourselves and the World around us can we move forward and truly evolve in an authentic way, a place where we can have REAL 'love and light'.

Yearning for the New Age Jan 15 2021 This biography of an unconventional woman in late 19th Century America is a study of the search for individual autonomy and spiritual growth. Laura Holloway-Langford, a “rebel girl” from Tennessee, moved to New York City, where she supported her family as a journalist. She soon became famous as the author of *Ladies of the White House*, which secured her financial independence. Promoted to associate editor of the *Brooklyn Daily Eagle*, she gave readings and lectures and became involved in progressive women’s causes, the temperance movement, and theosophy—even traveling to Europe to meet Madame Blavatsky, the movement’s leader, and writing for the theosophist newspaper *The Word*. In the early 1870s, she began a correspondence with Eldress Anna White of the Mount Lebanon, New York, Shaker community, with whom she shared belief in pacifism, feminism, vegetarianism, and cremation. Attracted by the simplicity of Shaker life, she eventually bought a farm from the Canaan Shakers, where she lived and continued to write until her death in 1930. In tracing the life of this spiritual seeker, Diane Sasson underscores the significant role played by cultural mediators like Holloway-Langford in bringing new religious ideas to the American public and contributing to a growing interest in eastern religions and alternative approaches to health and spirituality that would alter the cultural landscape of the nation. “[A] richly detailed biography . . . that will deepen historical understandings of New Age movements in America.” —*American Studies*

The New Age Mar 05 2020 Not since his *Science: Good, Bad and Bogus* has there been such a bountiful offering of the delightful combination of drollery and horse sense that has made Martin Gardner the undisputed dean of the critics of pseudoscience. In *The New Age: Notes of a Fringe-Watcher*, Gardner confronts new trends in pseudoscience and the paranormal: from the much-publicized past-life exploits of Shirley MacLaine to the latest in perpetual-motion machines, from "prime-time preachers" to the "channeling mania" of the past few years. Many of these pieces were published in Gardner's column in the *Skeptical Inquirer*. Others appeared in the *New York Times*, *The New York Review of Books*, *Discover* magazine, and other publications. Gardner has added forewords and/or afterwords to most of the chapters to give background, to bring recent developments to light, or to include responses from his critics. Destined to be a classic of skeptical literature, this book will be a welcome treat for Gardner fans and a rewarding adventure for his new readers.

The Gnostic New Age Jun 27 2019 Gnosticism is a countercultural spirituality that forever changed the practice of Christianity. Before it emerged in the second century, passage to the afterlife required obedience to God and king. Gnosticism proposed that human beings were manifestations of the divine, unsettling the hierarchical foundations of the ancient world. Subversive and revolutionary, Gnostics taught that prayer and mediation could bring human beings into an ecstatic spiritual union with a transcendent deity. This mystical strain affected not just Christianity but many other religions, and it characterizes our understanding of the purpose and meaning of religion today. In *The Gnostic New Age*, April D. DeConick recovers this vibrant underground history to prove that Gnosticism was not suppressed or defeated by the Catholic Church long ago, nor was the movement a fabrication to justify the violent repression of alternative forms of Christianity. Gnosticism alleviated human suffering, soothing feelings of existential brokenness and alienation through the promise of renewal as God. DeConick begins in ancient Egypt and follows with the rise of Gnosticism in the Middle Ages, the advent of theosophy and other occult movements in the nineteenth and early twentieth centuries, and contemporary New Age spiritual philosophies. As these theories find expression in science-fiction and fantasy films, DeConick sees evidence of Gnosticism's next incarnation. Her work emphasizes the universal, countercultural appeal of a movement that embodies much more than a simple challenge to religious authority.

Rebirthing in the New Age May 07 2020 You can create for yourself ongoing health, effortless bliss, prosperity, youthfulness, and even total mastery by consciously using the power of your mind and your breath. Rebirthing in the New Age describes an innovative technique called rebirthing. Rebirthing is a breathing process that does for adults what the Leboyer's "birth without violence" method does for infants... transforming the subconscious impression of birth into a gentle and awakening event. This breathing process produces extraordinary results because as one takes in the light, all else is revealed and let go of; thus one's heart is open to receive love, peace and joy. The rebirthing technique is augmented by the use of affirmations. Thoughts produce effects and we create our happy/unhappy world with our own positive/negative thoughts. The idea behind affirmations is to imprint positive thoughts regarding desired changes into the consciousness through autosuggestion, using the emotional response technique. "The Mind and the Breath are the king and queen of human consciousness." Leonard Orr Since the Rebirthing Movement started in 1974, it has spread all around the globe to over ten million people from all walks of life.

[The New Age of Ageing](#) Nov 24 2021 Society does something strange to us as we get old. We are no longer seen as valued participants in the world but marginalized as burdens and problems to be solved. We become the other. This book presents a different vision of the future. Drawing on fifty interviews with people aged fifty to ninety, it proves aging is not simply passive decline but a process of learning, joy, political engagement, challenge, and achievement. For example: Mary, 83, has resisted her children's suggestion to downsize and is fostering two teenage boys. Joseph, 68, fights for the rights of small farmers worldwide. Through their voices and the voices of many others, we come to understand both the difficulties and possibilities of aging. Increased longevity has consequences for us all. By challenging our assumptions and stereotypes, this book proves that a society that takes better account of older people is better for everyone.

New Age, Neopagan, and New Religious Movements Feb 02 2020 "New Age, Neopagan, and New Religious Movements is a comprehensive and user-friendly book devoted to the study of alternative spiritual currents in modern America. The book covers a wide range of new religions from the mid-nineteenth century to the present, including the Native American Church, Mormonism, Spiritualism, Scientology, the Nation of Islam, Rastafari, ISKCON, Wicca, the Church of Satan, Peoples Temple, Branch Davidians, and the Raelians. Each chapter focuses on one key issue or debate that raises larger issues in the study of religion and American culture more broadly, such as the legality of peyote in the Native American Church, the role of women and feminism in Wicca, the role of hip hop and reggae music in the spread of the Nation of Islam and Rastafari, and the debate over human cloning in the Raelian movement. The book also addresses key theoretical and methodological problems in the study of new religions: Why has there been such a tremendous proliferation of new spiritual forms in the past 150 years, even amid our increasingly rational, scientific, technological, and 'secular' society? Why has the United States become the heartland for the explosion of new religious movements? How do we deal with complex legal debates such as the use of peyote by the Native American Church, the use of marijuana by Rastafarians, or the practice of plural marriage by some

Mormon communities? And how do we navigate issues of religious freedom and privacy in a new age of religious violence, terrorism, and government surveillance?"--Provided by publisher.
