Promised Land, Crusader State Jun 27 2019 A look at America's foreign policy over the past two hundred years posits the theory that America is struggling with two visions of itself as reflected in its foreign policy

Freedom Just Around the Corner May 19 2021 A powerful reinterpretation of the founding of America by a Pulitzer Prize-winning historian. The creation of the United States of America is the central event of the past four hundred years," states Walter McDougall in his preface to Freedom Just Around the Corner. With this statement begins McDougall's most ambitious, original, and uncompromising of histories. McDougall marshals the latest scholarship and writes in a style redolent with passion, pathos, and humour in pursuit of truths often obscured in books burdened with political slants. With an insightful approach to the nearly 250 years spanning America's beginnings, McDougall offers his readers an understanding of the uniqueness of the "American character" and how this character has shaped the wide ranging course of historical events. McDougall explains that Americans have always been in a unique position of enjoying "more opportunity to pursue their ambitions than any other people in history." Throughout Freedom Just Around the Corner the character of the American people shines, a character built out of a freedom to indulge in the whole panoply of human behaviour. The genius behind the success of the United States is founded on the complex, irrepressible American spirit. A grand narrative rich with new details and insights about colonial and early national history, Freedom Just Around the Corner is the first instalment of a trilogy that will eventually bring the story of America up to the present day, a story epic, bemusing, and brooding.

The Americans California Mar 05 2020 Text includes seven units and twenty-six chapters of study of United States history and the people that helped shape that history.

The Americans Grades 9-12 Jun 19 2021

The Tragedy of U.S. Foreign Policy Dec 02 2019 A fierce critique of civil religion as the taproot of America's bid for global hegemony Pulitzer Prize-winning historian Walter A. McDougall argues powerfully that a pervasive but radically changing faith that "God is on our side" has inspired U.S. foreign policy ever since 1776. The first comprehensive study of the role played by civil religion in U.S. foreign relations over the entire course of the country's history, McDougall's book explores the deeply infused religious rhetoric that has sustained and driven an otherwise secular republic through peace, war, and global interventions for more than two hundred years. From the Founding Fathers and the crusade for independence to the Monroe Doctrine, through World Wars I and II and the decades-long Cold War campaign against "godless Communism," this coruscating polemic reveals the unacknowledged but freely exercised dogmas of civil religion that bind together a "God blessed" America, sustaining the nation in its pursuit of an ever elusive global destiny.

Born to Run Jul 29 2019 At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what

the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.
