The China Reader Feb 13 2021 "Chronicles the diverse aspects of this transition since the late-1990s. It is comprehensive in scope and draws upon both primary Chinese sources and secondary Western analyses written by the world's leading experts on contemporary China ... covers the full range of China's internal and external developments."--From publisher description.

The Picture of Dorian Gray Apr 05 2020 Is the price of eternal youth worth a man's soul? The exceptionally handsome Dorian Gray is a model—and the muse—for a young artist, Basil Hallward. Through Basil, Dorian meets Lord Henry Wotton, who values only the pleasurable things in life with no regard for morality. He makes Dorian realize that one day his famed beauty will fade, and he will be left with nothing. Dorian decides to sell his soul so that a portrait of him will age in his place. As he indulges in every vice and selfish whim, his portrait grows increasingly hideous. But will he learn the true cost of his corruption in time to change his ways? This unabridged edition of British playwright Oscar Wilde's only novel, first published in 1891, begins with his famous preface, in which he justifies his artistic philosophy.

Chinese Rules Sep 30 2019 From the author of the acclaimed Mr. China comes another rollicking adventure story—part memoir, part history, part business imbroglia—that offers valuable lessons to help Westerners win in China. In the twenty-first century, the world has tilted eastwards in its orbit; China grows confident while the West seems mired in doubt. Having lived and worked in China for more than two decades, Tim Clissold explains the secrets that Westerners can use to navigate through its cultural and political maze. Picking up where he left off in the international bestseller Mr. China, Chinese Rules chronicles his most recent exploits, with assorted Chinese bureaucrats, factory owners, and local characters building a climate change business in China. Of course, all does not go as planned as he finds himself caught between the world's largest carbon emitter and the world's richest man. Clissold offers entertaining and enlightening anecdotes of the absurdities, gaffes, and mysteries he encountered along the way. Sprinkled amid surreal scenes of cultural confusion and near misses, are smart myth-busting insights and practical lessons Westerners can use to succeed in China. Exploring key episodes in that nation's long political, military, and cultural history, Clissold outlines five Chinese Rules, which anyone can deploy in on-the-ground situations with modern Chinese counterparts. These Chinese rules will enable foreigners not only to cooperate with China but also to compete with it on its own terms.

The Chinese reader's manual May 19 2021 This is a handbook of biographical, historical, mythological and general literary references helpful to students of Chinese literature.

Wu Song kills a tiger Jul 21 2021 One of the most famous episodes from Water Margin, a traditional Chinese novel, is here retold in simple Chinese. This text is the fifth volume designed to supplement the Intermediate Chinese Reader by John DeFrancis. It is presented in simplified characters, with pinyin romanization, and an accompanying audio program is available.

Beginning Chinese Reader Nov 05 2022 This second edition, like the earlier first edition, introduces some of the main varieties of Chinese as found before and after the establishment of the People's Republic of China in 1949. While continuing to stress the basic importance of the traditional usages, such as the regular characters to be found in all materials published before the adoption of the simplified forms in 1956 and still in use in some areas, the present revision goes further in contrasting

variant usages and in providing additional material relevant to the PRC. Closely related with the author's *Beginning Chinese* and its companion volume, *Character Text for Beginning Chinese*, this text is based on a new approach which not only takes into account the advantages of the oral-aural method but gets the student more quickly into material that he is likely to encounter in actual written Chinese. Unique features are the emphasis on compounds and their extensive use in various types of exercises. The 1,200 combinations are based on 400 characters; in all, the book contains 120,000 characters of running text. All compounds appear in illustrative sentences accompanied by English translations, in dialogues as a means of audio-lingual reinforcement, and in narrative or expository form. Additional exercises include maps, booksellers' book lists, correspondence, poems, table of contents, and brief passages from the works of outstanding writers such as Sun Yatsen, Hu Shih, Mao Tse-tung, and Lu Hsun. Supplementary lessons present reading material using the simplified characters adopted in mainland China. To suit the needs of the beginner, characters are introduced in large size, and tables indicate the sequence of strokes used in their formation. In addition to a pinyin index, there are three summary charts in which the characters are arranged by lesson, by number of strokes, and by radical. A fourth chart contrasts regular and simplified characters; a fifth chart presents variant forms of the same character. Because of the large characters and extensive material, the book is issued in two volumes, Part I and Part II. This work was supported by a contract with the United States Office of Education. This is the paper copy version of this text.

A Classical Chinese Reader May 07 2020 Designed as an advanced/intermediate level textbook for students, this book will meet the needs of those making the transition between 'textbook texts' to 'real texts'. Dr Wagner's many years' experience of teaching classical Chinese are brought to bear on one of the most difficult aspects of learning the language - making the progression from introductory textbooks on classical Chinese, which do not present serious philological problems, to real historical texts, in which such problems abound. The text used is the biography of Huo Guang in the *Han Shu* together with the commentaries compiled by Yan Shigu.

First Chinese Reader for Beginners May 31 2022 The book consists of Elementary and Pre-intermediate courses with parallel Chinese-English texts. The author maintains learners' motivation with funny stories about real life situations such as meeting people, studying, job searches, working etc. The method utilizes the natural human ability to remember words used in texts repeatedly and systematically. The author composed each sentence using only words explained in previous chapters. The second and the following chapters of the Elementary course have only about thirty new words each. Phonetic transcription Pinyin transcribes the sounds of Mandarin using the western (Roman) alphabet. The book is equipped with the audio tracks. The address of the home page of the book on the Internet, where audio files are available for listening and downloading, is listed at the beginning of the book on the copyright page. As you read a bilingual reader, your brain begins to remember words and phrases simply because you are exposed to them several times. You don't even realize, until you must recall what you've learned, that you have already learned the new words and phrases. The graded language book with a parallel translation has helped many to uncover their potential for learning multiple languages. Whether you are learning a language as a hobby or for a necessary purpose, you will find such books are supportive. It can usually take you from one to three months to finish a bilingual graded reader at beginner level (A1) and elementary level (A2). The amount of time depends on your previous experience with learning foreign languages and on your personal abilities. At this point you should be able to ask and answer simple questions with the following questioning words: What? Who? Where? When? Which? How many/much? A good idea is to use the free VLC media player to control the playing speed. You can control the playing speed by decreasing or increasing the speed value on the button of the VLC media player's interface. Read and listen at the same time!

Hacking Chinese Dec 26 2021 Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering "This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

Reading to Write: A Textbook of Advanced Chinese Aug 10 2020 Traditionally, reading and writing are believed to be separate but related language processes and teachers follow the conventional wisdom of teaching in-depth reading, with writing as a tag-on issue. Therefore, there exists an increasingly urgent call for a well-rounded reading-writing curriculum and a theoretically-informed, empirically-based, student-centered advanced textbook that aims to develop the synergy between reading and writing. *Reading to Write: A Textbook of Advanced Chinese* is intended to fill this significant gap. It treats reading and writing as integrative parts and interactive skills in Chinese language teaching, putting them hand-in-hand, supplementing each other.

The Chinese Language Nov 24 2021 "DeFrancis's book is first rate. It entertains. It teaches. It demystifies. It counteracts popular ignorance as well as sophisticated (cocktail party) ignorance. Who could ask for anything more? There is no other book like it. ... It is one of a kind, a first, and I would not only buy it but I would recommend it to friends and colleagues, many of whom are visiting China now and are adding 'two-week-expert' ignorance to the two kinds that existed before. This is a book for everyone." --Joshua A. Fishman, research professor of social sciences, Yeshiva University, New York "Professor De Francis has produced a work of great effectiveness that should appeal to a wide-ranging audience. It is at once instructive and entertaining. While being delighted by the flair of his novel approach, the reader will also be led to ponder on some of the most fundamental problems concerning the relations between written languages and spoken languages. Specifically, he will be served a variety of information on the languages of East Asia, not as dry pedantic facts, but as appealing tidbits that whet the intellectual appetite. The expert will find much to reflect on in this book, for Professor DeFrancis takes nothing for granted." --William S.Y. Wang, professor of linguistics, University of California at Berkeley

Wild Swans Sep 10 2020 The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

A New China Mar 29 2022 Originally published in 1999, *A New China* has become a standard textbook for intermediate Chinese language learning. This completely revised edition reflects China's dramatic developments in the last decade and consolidates the previous two-volume set into one volume for easy student use. Written from the perspective of a foreign student who has just arrived in China, the textbook provides the most up-to-date lessons and learning materials about the changing face of China. The first half of the book follows the life of an exchange student experiencing Beijing for the first time. Chinese language students are guided step-by-step through the stages of arriving at the airport, going through customs, and adjusting to Chinese university dormitories. The revised edition includes new lessons on daily life, such as doing laundry and getting a haircut, as well as visiting the zoo, night markets, and the Great Wall. Later lessons discuss recent social and political issues in China, including divorce, Beijing traffic, and the college entrance examination. *A New China* provides detailed grammar explanations, extensive vocabulary lists, and homework exercises. Single-volume, user-friendly format New lessons and vocabulary reflecting daily living in China Includes China's recent social and political issues Detailed grammar explanations, vocabulary lists, and homework exercises Uses both traditional and simplified characters

New Practical Chinese Reader 4, Workbook (2. Edition) Aug 02 2022 Since the publication of *New Practical Chinese Reader* in 2002, it has been well-received by teachers and learners. For users' convenience, in this new edition we have revised those points we found improper. In contrast to its first edition, the notes of the texts are designed next to each text to facilitate students. We have not revised the framework, especially the texts and the main language points of the textbook. Users can visit

www.blcup.com/resource.blcup.com and download the traditional Chinese version of the texts for free. All the reading materials and illustrations in the workbook are updated. This is the second edition of the Workbook 4, which corresponds to Textbook 4. Each lesson is divided into two parts: 1. Listening and speaking exercises; 2. Reading and writing exercises. Readers are exposed to genuine Chinese materials to improve their integrated skills in listening, speaking, reading and writing. A CD of MP3 file is attached to the book, providing the recording of the listening exercises.

Intermediate Chinese Aug 22 2021 This text presents dialogues on everyday topics together with analysis of anticipated points of difficulty for the student and numerous sentences illustrating the usage of all new words and grammar. "Intermediate Chinese" has a number of unique features, chief among them is that the dialogues were first recorded and then transcribed and edited. This has resulted in livelier conversational material than is generally found in textbooks.
