The Data Science Design Manual Dec 02 2019 This engaging and clearly written textbook/reference provides a must-have introduction to the rapidly emerging interdisciplinary field of data science. It focuses on the principles fundamental to becoming a good data scientist and the key skills needed to build systems for collecting, analyzing, and interpreting data. The Data Science Design Manual is a source of practical insights that highlights what really matters in analyzing data, and provides an intuitive understanding of how these core concepts can be used. The book does not emphasize any particular programming language or suite of data-analysis tools, focusing instead on high-level discussion of important design principles. This easy-to-read text ideally serves the needs of undergraduate and early graduate students embarking on an "Introduction to Data Science" course. It reveals how this discipline sits at the intersection of

statistics, computer science, and machine learning, with a distinct heft and character of its own. Practitioners in these and related fields will find this book perfect for self-study as well. Additional learning tools: Contains "War Stories," offering perspectives on how data science applies in the real world Includes "Homework Problems," providing a wide range of exercises and projects for self-study Provides a complete set of lecture slides and online video lectures at www.data-manual.com Provides "Take-Home Lessons," emphasizing the big-picture concepts to learn from each chapter Recommends exciting "Kaggle Challenges" from the online platform Kaggle Highlights "False Starts," revealing the subtle reasons why certain approaches fail Offers examples taken from the data science television show "The Quant Shop" (www.quant-shop.com)

Restored by Hand Apr 29 2022 Vintage Porsche 365 restoration in detail for the do-it-yourself rebuilder written by Ron Roland, a professional who has done literally hundreds of 365's over a 30 year career. Ron wrote much of the source material for this book in a column published in the bi-monthly magazine of the national 365 Registry organization. These columns became the Bible for DIY restorers of these cars. Ron fulfilled a promise to redo this work and organize the material from the columns into book form and after 10 years of review, rewriting and editing, has fulfilled his promise.

Ferdinand Porsche - Genesis of Genius Apr 05 2020 In *Ferdinand Porsche - Genesis of Genius*, author Karl Ludvigsen reveals a dynamic young innovator who helped to chart the course of the automobile through the first decades of the twentieth century. As early as 1900, at the age of 25, Ferdinand Porsche pioneered hybrid technology to power his automobile designs. Once gasoline gained dominance as the power-source of choice, Porsche became relentless in his goal to design the fastest and most durable automobiles in Europe. *Ferdinand Porsche - Genesis of Genius* explores in depth the unique combination of ambition, determination and genius that were the genesis of an automotive dynasty which has continued to thrive and expand for over a century.

Manual of Tests and Criteria May 07 2020 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
