Pronunciation Jun 03 2020 English for Academic Study: Pronunciation English for academic study: Pronunciation is for students who need to communicate clearly and effectively in an academic environment in the medium of English. The aim of the course is to help students develop their pronunciation in English to a level that enables the listener to understand them with ease. The course provides students with structured patterns of English that will lead them step-by-step towards this goal. During the course, students will also learn the phonemic alphabet; this will remain a useful aid to accurate pronunciation throughout their studies. Care has been taken to ensure that the vocabulary focused on in this course is relevant to both academic study and the general needs of the student. The examples and exercises are based on words from the General Service List (GSL) and the Academic Word List (AWL). The 2009 edition of EAS Pronunciation has been fully revised for ease of use. As well as a new format, the Study Book also comes with a book map, unit summaries and a comprehensive glossary of terms. A dedicated website, www.englishforacademicstudy.com, offers further teacher resources. This book can be used in conjunction with the following books in the English for academic study series, also published by Garnet Education: EAS Reading, EAS Writing, EAS Extended Writing & Research Skills, EAS Listening, EAS Speaking and EAS Vocabulary. English for Academic Research: A Guide for Teachers Apr 01 2020 Scientific English is possibly the most rewarding area of EFL teaching. It differs from English for Academic Purposes (EAP) as it is directed to a much smaller audience: PhD and postdoc students. Courses on Scientific English are held in universities throughout the world, yet there is very little support for teachers in understanding what to teach and how to teach it. This guide is part of the English for Academic Research series. Part 1 of the book sheds light on the world of academia, the writing of research papers, and the role of journal editors and reviewers. Part 2 gives practical suggestions on how to help your students improve their presentation skills. In Part 3 you will learn how to teach academic skills using nonacademic examples. Parts 1-3 are thus useful for anyone involved in teaching academic English, whether they have used the other books in the series or not. Part 4 suggests two syllabuses for teaching writing and presenting skills, based on the two core books: *English for Writing Research Papers* *English for Presentations at International Conferences* This book will help you i) understand the world of your

students (i.e. academic research), ii) plan courses, and iii) exploit the What's the Buzz? sections in the books on Writing, Presentations, Correspondence and Interacting on Campus. Adrian Wallwork has written over 30 books covering General English (Cambridge University Press, Scholastic), Business English (Oxford University Press), and Scientific English (Springer). He has trained several thousand PhD students from all over the world to write and present their research. Adrian also runs a scientific editing service: English for Academics (E4AC).

Cambridge English for the World 1 Class Audio Cassette Set (2 Cassettes) Mar 13 2021 This course for young students is a success story all over the world, winning praise from both teachers and students alike for its innovative approach that really does work. The Teacher's Book is clear and comprehensive and includes an 'A-Z of Methodology' reference section. Videos and tests are also available for all levels of the course. Levels 1-4 contain around 80 hours of class work depending on the various options used. The Starter Level provides around 40-60 hours of class work. Key Features: * Enjoyable activities that encourage all students to take part, whatever their level. * Interesting topics linked to the school curriculum. * A clearly structured, active approach to grammar. * The popular 'Parcel of English' scheme.

A Course Book in English Grammar Jul 25 2019 The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.
