Chinese Character Master May 07 2020 The heart of this book is a series of etymological lessons, in which approximately 2300 Chinese characters are classified according to 224 'primitives' upon which they are based. For each character Father Wiegler gives the modern form, its archaic form, literary pronunciation (Wade system), explanations of origin, semantic content of component parts, related characters, variants forms, quotations of classical usage, and similar material. To make his book more useful Father Wiegler has also incorporated a tremendous number of reading aids for the student: listings of the primitives; an index of the characters analyzed, arranged by number of strokes; an index of 858 phonetic elements, arranged by number of strokes; a listing of about 10,000 characters by phonetic element; a lexicon by transliteration, comprising about 7,000 characters; and a lexicon of about 10,000 characters according to the customary modern system of 214 radicals devised by Hsi.

Reading & Writing Chinese Simplified Character Edition
April 22 2021 This is a revised second edition of Tuttle's Reading and Writing Chinese. Reading and Writing Chinese has long been the best-

reference text for foreign students and teachers of Chinese characters. This new edition focuses on the internationally recognized test of Chinese language proficiency, the Hanyu Shuiping Kaoshi (HSK). The 800 characters prescribed for Level A are covered here, and the 1400+ Levels B and C characters are covered concisely. All of the prescribed vocabulary for Levels A-C of the Hanyu Shuiping Kaoshi is included among the example compounds. Knowledge of the 2,200+ characters and 5,253+ vocabulary items covered will equip students to take the test at either the Basic or the Elementary-Intermediate standard. Success in the top band of the Basic standard is sufficient to enter college in China. Completely revised with simplified characters, it draws on the lessons learned from the use of this book in classrooms to provide a convenient and up-to-date introduction to the Chinese writing system. The materials are organized in units of progressive difficulty and complexity, with clear definitions and examples. Individual characters are presented in a logical and systematic sequence. The student's ability to read Chinese and write Chinese are reinforced throughout.

The Chinese Language 27 2019 "DeFrancis's book is first rate. It entertains. It teaches. It demystifies. It counteracts popular ignorance as well as sophisticated (cocktail party) ignorance. What could ask for anything more? There is no other book like it. ... It is one of a kind, a first, and I don't only buy it but I would recommend it to friends and colleagues, many of whom are visiting China and are adding 'two-week-expert' ignorance to the two kinds that existed before. This is a book for everyone." --Joshua A. Fishman, research professor of social sciences, Yeshiva University, New York
"Professor De Francis has produced a work of great effectiveness that should appeal to a wide audience. It is at once instructive and entertaining. While being delighted by the flair of his novel approach, the reader will also be led to ponder on some of the most fundamental problems concerning the relations between written languages and spoken languages. Specifically, he will be served with a wealth of information on the languages of East Asia, not as dry pedantic facts, but as appealing tidbits to whet the intellectual appetite. The expert will find much to reflect on in this book, for Professor DeFrancis takes nothing for granted." --William S.Y. Wang, professor of linguistics, University of California at Berkeley

Revised Edition of Simplified Vs. Traditional Chinese Characters 2019 This book documents in detail the complex relationships between Simplified Chinese and Traditional Chinese: the two forms of 7000 characters are matched up, complex cases annotated with the word contexts in an innovative layout. It is a comprehensive dictionary, primarily intended for answering a common question: given a Chinese character, either Simplified or Traditional, what is its counterpart in the other form? For everyone reading, writing and converting the two written forms of Chinese, it is an essential reference; for those who are preparing to learn one of the two forms, it provides a self-study path to master the other form; and for anyone who is interested in understanding the two written forms, it is an one-stop resource on the subject.

Tuttle Learning Chinese Characters 2022 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easy through the use of techniques based on the psychology of learning and memory. Key principles include: visual imagery, the visualization of short "stories," and the systematic building up of more complex characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

characters including 623 characters in the HSK Level 1-3 list. Chinese characters are based on inscriptions found on bones and tortoise carapaces used in the 14th and 12th century B.C. In the 6th and 7th centuries, they were said to have been passed on to nations in the Korean peninsula at that time, and then passed on to Japan. All languages change with time and Chinese was no exception. The usage of Chinese characters in Korea and Japan retain the original form and meaning of the characters were passed on, so it was very helpful to have the input of scholars from the three countries. This book is an attempt to compile the opinions of scholars from these three countries, and the authors' own interpretations of the inscriptions on bronze, bones and tortoise carapaces to explain the origin of the characters. The authors' aim is to help our readers understand the characters, not to become experts on their own right. But that does not mean this book is a pet project. It is intended to help readers understand the meanings of all Chinese characters.

The Big Chinese Character Dictionary. Covering 8897 Chinese Characters with Sound Transcription, English Meaning Definitions and Writing Practice According to the Chinese Radical System
2020 This new Chinese Character Dictionary covers over 8000 Chinese simplified character entries with transcription, English meaning definitions and writing practice. Character entries are sorted according to the Chinese Radical system, and the increased coverage of Chinese characters exceeding 8000 of 3000 characters deemed to be the minimum for reading a newspaper daily, for example, will therefore also meet the higher demands of more advanced Western learners of Chinese. There is an opportunity for writing practice; two Chinese character indices for locating Chinese characters in this book (sorted by radicals and number of strokes) and two radical tables (covering both traditional and simplified Chinese characters for comparison) at the end complete the material of the book.

Remembering Simplified Hanzi April 17 2021 "The approach that has helped thousands of learners memorize Japanese kanji has been adapted to help students with Chinese characters. Remembering Simplified Hanzi covers the writing and meaning of the 1,000 most commonly used characters in the traditional Chinese writing system, plus another 500 that are best learned at an early stage." The critical importance to the approach found in these pages is the systematic arranging of characters in an order best suited to memory. In the Chinese writing system, strokes and simple components are used within relatively simple characters, which can, in turn, serve as parts of more complicated characters and so on. Taking advantage of this allows a logical ordering, making it possible for students to approach most new characters with prior knowledge that can greatly facilitate the learning process."--BOOK JACKET.

Hacking Chinese Jul 09 2020 Learning Chinese can be frustrating and difficult, partly because it is so different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that are not included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some questions I have asked and have since been asked many times by students: How do I learn Chinese more efficiently? How do I get the most out of my course or teacher? Which are the best learning resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How can I learn successfully on my own? How can I motivate myself to study more? How can I fit learning into a busy schedule? The answers I've found to these questions and many others form the core of this book.

book. It took eight years of learning, researching, teaching and writing to figure these things everybody has the time to do that! I can't go back in time and help myself learn in a better way to help you! This book is meant for normal students and independent language learners alike. What it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like watching someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering. "This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist. "I've started learning Chinese when I was 23 (that's more than eight years ago now) and have since been in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have successfully used my Chinese in a graduate program for teaching Chinese as a second language and entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.
