Leonardo Pisano (Fibonacci) Nov 08 2020 The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers

with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Psychosomatics Today Dec 10 2020 Psychosomatics have classically been of peripheral importance within our wellknown theoretical models, despite the fact that they do have a history in the field of psychoanalysis. This might be owing to the fact that Freud did not explicitly approach psychosomatics and, in consequence, did not put forward any hypotheses within his theoretical body. However, the Freudian concepts of actual neuroses and mixed neuroses are a basis in order to understand psychosomatic phenomena. The same could be said about the connections established with subsequent Freudian theoretical models, such as: the introduction of narcissism, unresolved mourning processes, early trauma and the action of Thanatos.

The Dream House Oct 27 2019 A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins *The Dream House*, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to *The Dream House*, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

The Cambridge Handbook of Literacy Jun 15 2021 This volume demonstrates how literacy is more than learning to read and write. Literacy creates communities, organizes personal and social lives, makes possible civil society and the rule of law, and underwrites the commitment of both modern and developing societies to universal education and ever higher levels of literate competence. Everything that is involved in being and becoming literate is the concern of this interdisciplinary group of distinguished scholars.

Academic Literacy Development Dec 22 2021 This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

The Garland Handbook of African Music Mar 13 2021 The Garland Handbook of African Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 1, Africa, (1997). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to Africa. Part Two focuses on issues and processes, such as notation and oral tradition, dance in communal life, and intellectual property. Part Three focuses on the different regions, countries, and cultures of Africa with selected regional case studies. The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published. Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa -- issues that might not occur in the study of other musics of the world. An accompanying audio compact disc offers musical examples of some of the music of Africa.

The Baby Knits Book Jan 29 2020 Debbie Bliss is now the star name in knitwear design and is set to become an even bigger name - she now has her own yarn range, available throughout the UK, North America, Europe, Japan and beyond. Debbie's many previous bestselling books have established her as the most stylish but accessible designer of children's knits working today. In this book, she returns to her core territory, with a fabulous new collection of new ideas for 0-3 year olds, the key time when knitters pick up their needles and get to work. There are designs for baby blankets, first sweaters and cardigans, bootees and more unusual items, as well as lots of ideas for ultra-wearable, ultra-stylish kit for toddlers. To help even inexperienced knitters create these designs, each pattern includes extra info on the key stitches and techniques required, watchpoints and an estimated degree of difficulty and time required to knit it. All in all, an absolutely must-have collection from the star designer in knitwear today.

South African Language Rights Monitor 2011 / Suid-Afrikaanse Taalregtemonitor 2011 Mar 25 2022 The SALRM 2011 provides a rich source of information on a range of language-related subjects. A prominent issue remains the changing of street and place names, including the Pretoria/Tshwane and Louis Trichardt/Makhado sagas. Language in education remains a thorny issue; as medium of instruction at school and tertiary level, and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa. In terms of language legislation, the draft version of the National

Language Act was proposed. The language of record in courts also received attention in the media.

The Construction of Words Nov 28 2019 This volume focuses on detailed studies of various aspects of Construction Morphology, and combines theoretical analysis and descriptive detail. It deals with data from several domains of linguistics and contributes to an integration of findings from various subdisciplines of linguistics into a common model of the architecture of language. It presents applications and extensions of the model of Construction Morphology to a wide range of languages. Construction Morphology is one of the theoretical paradigms in present-day morphology. It makes use of concepts of Construction Grammar for the analysis of word formation and inflection. Complex words are seen as constructions, that is, pairs of form and meaning. Morphological patterns are accounted for by construction schemas. These are the recipes for coining new words and word forms, and they motivate the properties of existing complex words. Both schemas and individual words are stored, and hence there is no strict separation of lexicon and grammar. In addition to abstract schemas there are subschemas for subclasses of complex words with specific properties. This architecture of the grammar is in harmony with findings from other empirical domains of linguistics such as language acquisition, word processing, and language change.

Klankgrens Aug 30 2022 Jy het by my verbygestrompel en op hierdie dubbelbed neergeval. Ek het jou na die koppenent se kant toe probeer sleep. Die man wat my knieë lam gemaak het wanneer hy in uniform tussen ander staan, was pap en swaar, 'n dronk pateet. Die Weermag, die noodlot, die sisteem — het 'n man en beskermer, 'n mens wat 'n morele leier kon gewees het, van my gesteel. Die man op ons dubbelbed kon enigiets gewees het, enigiets. Maar jy moes drink om die oorlog in jou kop beëindig te kry. Die dampe van die drank in die vertrekke van ons huis was oorlogsdampe. Maretha Maartens en Magda Slabbert neem hande om in Klankgrens die verhaal van pyn, oorlewing en die diepe worstelinge van die grensoorlog se weermagvroue oop te vlek. Uit die oogpunt van die vrouens wat moes agterbly, wat moes aanhou, wat moes verstaan, en kop bo water hou, leer ken ons vir Jo en haar kinders en die stryd wat die vrouens gevoer het, weg van die grens.

Contraception - Healthy Choices Apr 25 2022 'It's a really great book: friendly, comprehensive, complete and up-to-date. It is an explanatory guide to help you judge and choose the contraception to use. I recommend the book highly.' Dr Cindy Pan, general practitioner, media broadcaster and author of Pandora's Box.

Choosing a method of contraception isn't simply about preventing pregnancy. It's also about making the best choice for your future, your lifestyle, your health and your peace of mind. This updated edition of Contraception-Healthy Choices provides both women and men with information to help make that choice. Forms of contraception covered include condoms (male and female), progestogen-only injections, implants, diaphragms, cervical caps, intrauterine devices (IUDs), natural family planning, traditional methods and sterilisation. The book also includes an update on the contraceptive pill, a new chapter on the increasingly popular vaginal ring, and new information on emergency contraception. There is information on how pregnancy happens, reducing the incidence of sexually transmissible infections and abortion. Written in an easy-to-read Q&A format and illustrated throughout, Contraception-Healthy Choices is a practical and contemporary guide for people who want to make a contraception they use.
