Cash-flow e indicatori di allerta Jun 24 2022 L' approvazione da parte dell'EBA delle nuove Linee guida in materia di concessione dei prestiti pone nuovamente al centro del dibattito scientifico e professionale la valutazione dell'assetto finanziario delle imprese. La conseguenza più probabile è che le imprese saranno costrette a migliorare ancora gli indici di misurazione delle performance e i processi di comunicazione finanziaria verso le banche e i mercati. Il libro descrive il framework che gli istituti di credito dovranno adottare per valutare in chiave prospettica, quindi in un'ottica forward-looking, le capacità di rimborso dell'indebitamento aziendale e, di converso, cosa possono fare le imprese per migliorare la qualità dei flussi di cassa e la solvibilità. Vengono approfonditi gli strumenti per la misurazione e la rappresentazione, a consuntivo e in via preventiva, dei flussi di cassa e le variabili che lo alimentano. In particolare, verrà esaminata la relazione tra flussi di cassa generati dall'impresa e livello di indebitamento sostenibile (il c.d. DSCR). Il testo vuole fornire un punto di riferimento avanzato in tema di governo del merito creditizio facendo emergere la crescente importanza dei flussi di cassa anche alla luce degli indicatori di allerta previsti nel Codice della crisi d'impresa. Interpreta il mutato scenario della valutazione del credito e descrive come le imprese possono governare il rischio di insolvenza mediante adeguati indicatori di assetto finanziario (KPI).

Fishes in Lagoons and Estuaries in the Mediterranean 3B Dec 26 2019 Based on the most recent scientific data, and without neglecting historical publications, Fishes in Lagoons and Estuaries in the Mediterranean 3 comprehensively details Mediterranean lagoonal–marine migratory fish. It provides information regarding their systematics, ecobiology, ethology, genetics and their exploitation. This volume, third in a set of books on Mediterranean ichthyofauna, offers a synthesis of the knowledge acquired from 1890 to the present day for each of the 21 species most frequently found in Mediterranean lagoons and estuaries. These species are detailed across two volumes, 3A and 3B. The scientific data presented in this book concern their lagoon life as much as their marine life, and are therefore of particular interest for both the management of fish stocks and for the conservation of species. Designed to give rapid and comprehensive access to the body of knowledge on Mediterranean lagoonal and estuarine migratory fishes, this volume is for anyone involved in the use, management or protection of natural environments and their populations, including ecobiologists, geographers, engineers, teachers, students and researchers.

Economic Structure and Maturity: Collected Papers in Input-output Modelling and Applications Jun 19 2019 This title was first published in 2000: A collection of Ranko Bon's papers on input-output analysis and its applications. The underlying feature of the papers is a focus on the supply-side input-output model, which better predicts the behaviour of mature economic sectors, such as agriculture and mining, than the demand-sided model. The construction sector is especially relevant in the context of economic stability and maturity issues, as it offers an index of economic maturity for entire economies. This is the main theme that evolves through the papers collected in the book.

On the Requirement of Sufficient Maturity for Candidates to the Presbyterate (c. 1031, 1), with a Consideration of Canonical Maturity and Matrimonial Jurisprudence (1989-1990) Oct 28 2022 Maturitas and canonical maturity escape definition. Can one speak instead of presbyteral maturity or of matrimonial maturity? Maybe. Uncertain standards for what constitutes a sufficiency or a minimum compound a more basic confusion as to what might constitute maturity. Recent discourse between the social sciences and theology perhaps has created an ambiguity not previously associated with presbyteral maturity, and has exacerbated the ambiguity currently associated with the notion of matrimonial maturity developing in praxis.

A Window on the Italian Female Modernist Subjectivity Jan 07 2021 This collection of essays surveys some of the artistic productions by female figures who stood at the forefront of Italian modernity in the fields of literature, photography, and even the theatre, in order to explore how artistic engagement in women informed their views on, and reactions to the challenges of a changing society and a 'disinhibiting' intellectual landscape. However, one other objective takes on a central role in this volume: that of opening a window on the re-definition of the subjectivity of the self that occurred during an intriguing and still not fully studied period of artistic and societal changes. In particular, the present volume aims to define a female Italian Modernism which can be seen as complementary, and not necessarily in opposition, to its male counterpart.
