Literacy Leadership in Changing Schools Jan 27 2020 Literacy Leadership in Changing Schools will help literacy leaders improve teachers' professional development in grades K–6. The authors use literacy basics to suggest concrete approaches that leaders and coaches can use to help teachers improve their instruction with culturally and linguistically diverse students. Based on firsthand experiences, research, and a school-university-community collaborative (Changing Suburbs Institute in New York), this practical book homes in on what literacy leaders need to do in today's rapidly changing schools. With vignettes, strategies, and guidelines, each chapter is devoted to one essential component of serving as an effective literacy leader. Throughout, the book addresses typical issues leaders and teachers face, such as high-stakes testing, increasing failure rates, rigorous teacher and principal evaluations, family engagement, shrinking resources, and teachers' inexperience with instructing diverse students. "Today's educators are faced with the challenge of meeting the increased expectations associated with a high quality education for all children. The contributors provide an excellent resource of relevant information along with a wealth of concrete suggestions for meeting that challenge through effective leadership and ongoing, embedded professional development. The result is a road map for enriched learning experiences for the professionals involved and ultimately for the students they teach." —Dorothy S. Strickland, Samuel DeWitt Proctor Professor of Education Emerita, Rutgers "This book encourages and supports leaders as they create bold, thoughtful and empowering pathways for professional development. It is a recipe that has the power to highlight the joy of professional growth and learning for leaders, teachers and students alike. To me, that is truly fabulous." —Jennifer Scoggin, Director of LitLife, Connecticut "The authors address important aspects of the decision-making process, namely how to really know someone or something well before making a choice. Too many of our educational choices are based on outdated or misinformation and this book clearly shows school leaders how to obtain accurate information when creating a cohesive literacy model. This book also takes complex aspects of literacy professional development, such as standards and instructional techniques and breaks them down in clear and applicable ways so that decisions can not just be made but also be implemented." —Gravity Goldberg, Literacy Consultant, Director, Gravity Goldberg LLC

Chronicles from Kashmir: An Annotated, Multimedia Script Aug 26 2022 ‘ What is happening in Kashmir? ’ Chronicles from Kashmir explores this question through a site-adaptive 24-hour theatrical performance. Developed between 2013 and 2018 by the Ensemble Kashmir Theatre Akademi and Nandita Dinesh, the play uses a durational, promenade format to immerse its audience within a multitude of perspectives on life in Kashmir. From a wedding celebration that is interrupted by curfew, to schoolboys divided by policing strategies, and soldiers struggling with a toxic mixture of boredom and trauma, Chronicles from Kashmir uses performance, installation and collaborative creation to grapple with Kashmir ’ s conflicts through the lenses of outsiders, insiders, and everyone in between. Due to varying degrees of censorship and suppression, the play has not been performed live since 2017. Democratizing Leadership Aug 02 2020 Democratizing Leadership: Counter?hegemonic Democracy in Organizations, Institutions, and Communities promotes leadership in the democratization of culture to counter the current hegemony of domination and cultivate an alternative hegemony of collaboration. It is premised on a leadership framework for decision?making rooted in democratic voice and leading to collective action. This broad peacebuilding prescription for individual and collective agency accounts for the constructive role of conflict in democratic pluralism, and the need to develop practices and structures that prevent violent conflict in order to advance positive peace. This theory addresses the contexts of deliberative, agonistic, and revolutionary democratic frameworks. Democratizing Leadership is informed by three qualitative case studies described in rich detail. First Bank System Visual Art Program, In the Heart of the Beast Theater's May Day Ritual, and The Minnesota Alliance of Peacemakers exemplify the practice of democratizing leadership. These diverse settings include corporate banking during 1980's deregulation, an annual community May Day parade, and an informal alliance of peacemaking organizations. Leadership in each case promotes authentic voice, encourages decision?making with integrity, and advocates for responsible collective action.
