The Palgrave Handbook of Blue Heritage Oct 04 2022 This handbook is unique in its consideration of social and cultural contributions to sustainable oceans management. It is also unique in its deconstruction of the hegemonic value attached to the oceans and in its analysis of discourses regarding what national governments in the Global South should prioritise in their oceans management strategy. Offering a historical perspective from the start, the handbook reflects on the confluence of (western) scientific discourse and colonialism, and the impact of this on indigenous conceptions of the oceans and on social identity. With regard to the latter, the authors are mindful of the nationalisation of island territories worldwide and the impact of this process on regional collaboration, cultural exchange and the valuation of the oceans. Focusing on global examples, the handbook offers a nuanced, region relevant, contemporary conceptualisation of blue heritage, discussing what will be required to achieve an inclusive oceans economy by 2063, the end goal date of the African Union's Agenda 2063. The analysis will be useful to established academics in the field of ocean studies, policymakers and practitioners engaged in research on the ocean economy, as well as graduate scholars in the ocean sciences.

In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover

Coming to Birth Nov 12 2020 In this quietly powerful and eminently readable novel, winner of the prestigious Sinclair Prize, Kenyan writer Marjorie Macgoye deftly interweaves the story of one young woman's tumultuous coming of age with the history of a nation emerging from colonialism. At the age of sixteen, Paulina leaves her small village in western Kenya to join her new husband, Martin, in the bustling city of Nairobi. It is 1956, and Kenya is in the final days of the "Emergency," as the British seek to suppress violent anti-colonial revolts. But Paulina knows little about, about city life, or about marriage, and Martin's clumsy attempts to control her soon lead to a relationship filled with silences, misunderstandings, and unfulfilled expectations. Soon Paulina's inability to bear a child effectively banishes her from the confines of traditional women's roles. As her country at last moves toward independence, Paulina manages to achieve a kind of independence as well: She accepts a job that will require her to live separately from her husband, and she has an affair that leads to the birth of her first child. But Paulina's hard-won contentment will be shattered when Kenya's turbulent history intrudes into her private life, bringing with it tragedy—and a new test of her quiet courage and determination. Paulina's patient struggles for survival and identity are revealed through Marjorie Macgoye's keen and sensitive vision—a vision which extends to embrace the whole of a nation and a people likewise struggling to find their way. As the *Weekly Standard of Kenya* notes, "Coming to Birth is a radical novel in firmly asserting our common humanity."

308 Circuits Sep 30 2019 This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

The Bodhisattva's Brain May 07 2020 Can there be a Buddhism without karma, nirvana, and reincarnation that is compatible with the rest of knowledge? If we are material beings living in a material world—and all the scientific evidence suggests that we are—then we must find existential meaning, if there is such a thing, in this physical world. We must cast our lot with the natural rather than the supernatural. Many Westerners with spiritual (but not religious) inclinations are attracted to Buddhism—almost as a kind of moral-mental hygiene. But, as Owen Flanagan points out in *The Bodhisattva's Brain*, Buddhism is hardly naturalistic. In *The Bodhisattva's Brain*, Flanagan argues that it is possible to discover in Buddhism a rich, empirically responsible philosophy that could point us to one path of human flourishing. Some claim that neuroscience is in the process of validating Buddhism empirically, but Flanagan's naturalized Buddhism does not reduce itself to a brain scan showing happiness patterns. "Buddhism naturalized," as Flanagan constructs it, offers instead a fully naturalistic and comprehensive philosophy, compatible with the rest of knowledge—a way of conceiving of the human predicament, of thinking about meaning for finite material beings living in a material world.

The ARTHASHASTRA Dec 26 2021 An extraordinary detailed manual on statecraft and the science of living by one of classical India's greatest minds; Kautilya; also known as Chanakya and Vishnugupta; wrote the Arthashastra not later than 150 AD though the date has not been conclusively established. Legend has it that he was either a Brahmin from Kerala or from north India; however; it is certain that Kautilya was the man who destroyed the Nanda dynasty and installed Chandragupta Maurya as the King of Magadha. A master strategist who was well-versed in the Vedas and adept at creating intrigues and devising political stratagems; Kautilya's genius is reflected in his Arthashastra which is the most comprehensive treatise of statecraft of classical times. The text contains fifteen books which cover numerous topics viz.; the King; a complete code of law; foreign policy; secret and occult practices and so on. The Arthashastra is written mainly in prose but also incorporates 380 shlokas. Artha; literally wealth; is one of four supreme aims prescribed by Hindu tradition. However; it has a much wider significance and the material well-being of individuals is just a part of it. In accordance with this; Kautilya's Arthashastra maintains that the state or government of a country has a vital role to play in maintaining the material status of both the nation and its people. Therefore; a significant part of the Arthashastra has to do with the science of economics. When it deals with the science of politics; the Arthashastra describes in detail the art of government in its widest sense—the maintenance of law and order as also of an efficient administrative machinery.

Poetics Book by Aristotle : (Annotated Edition) Jun 27 2019 In the *Poetics*, his near-contemporary account of classical Greek tragedy, Aristotle examines the dramatic elements of plot, character, language and spectacle that combine to produce pity and fear in the audience, and asks why we derive pleasure from this apparently painful process. Taking examples from the plays of Aeschylus, Sophocles and Euripides, the *Poetics* introduced into literary criticism such central concepts as mimesis ('imitation'), hamartia ('error') and katharsis, which have informed serious thinking about drama ever since. Aristotle explains how the most effective tragedies rely on complication and resolution, recognition and reversals, while centring on characters of heroic stature, idealised yet true to life. One of the most perceptive and influential works of criticism in Western literary history, the *Poetics* has informed serious thinking about drama ever since. Malcolm Heath's lucid translation makes the *Poetics* fully accessible to the modern reader. In this edition it is accompanied by an extended introduction, which discusses the key concepts in detail, and includes suggestions for further reading.

Afghanistan Feb 02 2020 A fascinating chronicle of a nation's turbulent history. Reaching back to earliest times, Martin Ewans examines the historical evolution of one of today's most dangerous breeding grounds of global terrorism. After a succession of early dynasties and the emergence of an Afghan empire during the eighteenth century, the nineteenth and early twentieth century saw a fierce power struggle between Russia and Britain for supremacy in Afghanistan that was ended by the nation's proclamation of independence in 1919. A communist coup in the late 1970s overthrew the established regime and led to the invasion of Soviet troops in 1979. Roughly a decade later, the Soviet Union withdrew, condemning Afghanistan to a civil war that tore apart the nation's last remnants of religious, ethnic, and political unity. It was into this climate that the Taliban was born. Today, war-torn and economically destitute, Afghanistan faces unique challenges as it looks toward an uncertain future. Martin Ewans carefully weighs the lessons of history to provide a frank look at Afghanistan's prospects and the international resonances of the nation's immense task of total political and economic reconstruction.

The Old Man and the Medal Jul 21 2021 Writing in French in the 1950s, Ferdinand Léopold Oyono (1929–2010) had only a brief literary career, but his anticolonialist novels are considered classics of twentieth-century African literature. Like Oyono's *Houseboy*, also available from Waveland Press, this novel fiercely satirizes the false pretenses of European colonial rule in Africa. Meka, a village elder, has always been loyal to the white man. It is with pride that he first hears he is to receive a medal. While waiting for the ceremony, however, Meka's pride gives way to skepticism. At the same time, his wife has realized that the medal is being given to her husband as compensation for the sacrifices they have made. The events following the ceremony confirm Meka's new estimation of the white man. Both subtle and oftentimes humorous, this beautifully told story lays bare the hollowness of the mission in Africa. It fuels opportunities for discussing colonial politics around class and race as well as for exploring indigenous Cameroon life and values.
