Faceless Mar 12 2021 The contributions to this book explore a phenomenon that appears to be a contradiction in itself - we, the users of computers, can be tracked in digital space for all eternity. Although, on the one hand, one wants to be noticed and noticeable, on the other hand one does not necessarily want to be recognized at the first instance, being prey to an unfathomable public, or - even less so - to lose face. The book documents artistic and other strategies that point out options for appearing in the infinite book of faces whilst nevertheless avoiding being included in any records. The desire not to become a mere object of facial sell-out does not just remain an aesthetic endeavor. The contributions also contain combative and sarcastic statements against a digital dynamic that has already penetrated our everyday lives.

Bildzensur Mar 31 2020 Technische Bildzensur ist omnipr ä sent und gleichzeitig unsichtbar. Content Moderation in sozialen Medien und automatische L ö schungen durch Algorithmen schaffen einen neuartigen Zusammenschluss menschlicher und nicht-menschlicher Akteure, die bildethische und juristische Verschiebungen im Feld der Sichtbarkeit ansto ß en. Hatten tradierte Institutionen der Zensur durch gesetzliche und religi ö se Normen den Wirkungskreis gef ä hrlicher Bilder reguliert, sind es heute automatisierte, von internationalen Konzernen kontrollierte Mechanismen, die sozio-technische Skripte der Bildl ö schung steuern. In der Ö ffentlichkeit technischer Bildwelten werden Sichtbarkeitsmarker der L ö schung - wie Zensurbalken oder Verpixelung - von Upload-Filtern, Content Moderatoren oder Deepfakes abgel ö st. In dieser Experimentalphase der Digitalmoderne wird in technischer, sozialer, juridischer und bildtheoretischer Hinsicht noch einmal neu verhandelt, welche Bilder im Datenstrom zirkulieren, aus dem Blickfeld verschwinden oder nie ins Licht der Ö ffentlichkeit gelangen.

Comparing the Prospective Effect of Judicial Rulings Across Jurisdictions Jul 28 2022 This work deals with the temporal effect of judicial decisions and more specifically, with the hardship caused by the retroactive operation of

overruling decisions. By means of a jurisprudential and comparative analysis, the book explores several issues created by the overruling of earlier decisions. Overruling of earlier decisions, when it occurs, operates retrospectively with the effect that it infringes the principle of legal certainty through upsetting any previous arrangements made by a party to a case under long standing precedents established previously by the courts. On this account, in the recent past, a number of jurisdictions have had to deal with the prospect of introducing in their own systems the well-established US practice of prospective overruling whereby the court may announce in advance that it will change the relevant rule or interpretation of the rule but only for future cases. However, adopting prospective overruling raises a series of issues mainly related to the constitutional limits of the judicial function coupled by the practical difficulties attendant upon such a practice. This book answers a number of the questions raised by this practice. It makes use of the great reservoir of foreign legal experience that furnishes theoretical and practical ideas from which national judges may draw their knowledge and inspiration in order to be able to advise a rational method of dealing with time when they give their decisions.

Blank and Willem Sep 29 2022 "A cloud of dark knowledge" is the English-language edition of Wim Nijenhuis's doctoral dissertation. His investigation focuses on combining architectural, urban design and historical urban design texts with philosophical texts, with the intention of changing our perspective on cities and urban design. In an enormous extra-disciplinary gesture, the publication carries the reader along a wondrous world of the streets, engineers, norms, forums, growth, regulations, city limits, suburbs and speed. This publication reveals developments in the Dutch perception of urban design and architecture that characterized the Netherlands in the 1980s and 1990s, whereby the author develops instruments that can influence contemporary thinking about architecture and urban design.

Intermedial Performance and Politics in the Public Sphere Nov 19 2021 This volume is a collection of scholarly articles and interviews with intermedial artists working with the concepts of public sphere at the intersection of aesthetics and politics. It explores the response of socially-engaged artistic practices to the current crisis in politics and media. It also critically examines urgent issues such as rampant nationalism and populism, expanding neoliberalism, the refugee crisis, growing inosculation of corporate and cyber culture, and the ongoing geopolitical changes in the Middle East. Can intermedial performances reflect the present artistic and political dilemmas in Europe and beyond? The collection provides theoretical frameworks that interrogate the role that spectators as citizens can play in our mediatized world while focusing on the functions of immersion, participation, and civic engagement in contemporary performance and society. The collection provides analyses by international scholars from Europe, Asia, and the USA, covering global performance created in the twenty-first century. It also introduces interviews with internationally acclaimed intermedial artists and companies such as BERLIN, Rimini Protokoll, Dries Verhoeven, Akira Takayama, and Kris Verdonck.

Performance in the Twenty-First Century Dec 21 2021 Performance in the Twenty-First Century: Theatres of Engagement addresses the reshaping of theatre and performance after postmodernism. Andy Lavender argues provocatively that after the 'classic' postmodern tropes of detachment, irony, and contingency, performance in the twenty-first century engages more overtly with meaning, politics and society. It involves a newly pronounced form of personal experience, often implicating the body and/or one's sense of self. This volume examines a range of performance events, including work by both emergent and internationally significant companies and artists such as Rimini Protokoll, Blast Theory, dreamthinkspeak, Zecora Ura, Punchdrunk, Ontroerend Goed, Kris Verdonck, Dries Verhoeven, Rabih Mroué, Derren Brown and David Blaine. It also considers a wider range of cultural phenomena such as online social networking, sports events, installations, games-based work and theme parks, where principles of performance are in play. Performance in the Twenty-First Century is a compelling and provocative resource for anybody interested in discovering how performance theory can be applied to cutting-edge culture, and indeed the world around them.

Outsourcing Rulemaking Powers May 02 2020 Outsourcing Rulemaking Powers identifies the shared constitutional principles that determine the limits to the outsourcing of rulemaking powers. Through the examination of multiple countries, this book argues that there should be minimal legal safeguards to which all rules must heed, in particular those made by autonomous public or private actors.

Digital Snaps Jan 10 2021 Photography as an everyday practice is once again changing dramatically. At this moment of transition from analogue to digital, Digital Snaps aims to develop a new media ecology that can accommodate these changes to photography 'as we know it'. Expert contributors representing varied disciplines demonstrate how and to what extent the traditional social practices, technologies and images of analogue photography are being transformed with the movement to digital photography. They zoom in on typical, vernacular, everyday practices: the development of the family photo album from a physical object in the living room to a digital practice on the Internet; the use of mobile phones in everyday life; photo communities on the Internet; photo booth photography; studio photography; and fine arts' appropriation of amateur photography. They explore how this media convergence transforms the media ecology - the networks, objects, performances, meanings and circulations - of vernacular photography, as we research it through ordinary people's use of such new cameras and interactive Internet spaces as part of their everyday lives.

As part of the book series "Atmospheric Spaces", this volume analyses a new phenomenological and aesthetic paradigm based on the notion of the "Atmosphere", conceived as a feeling spread out into the external space rather than as a private mood. The idea of "Atmosphere" is here explored from different perspectives and disciplines, in the context of a full valorization of the so-called "affective turn" in Humanities.

Sexual Grounding Therapy Dec 29 2019 This important book explores the history of sexuality and the breadth of support available to people experiencing sex and relationship challenges, presenting a model of psychosexual

therapy that 's contextualised in the past, present and future and examined within a developmental and relational framework. Sexual Grounding Therapy focusses on the work of Willem Poppeliers, who developed his unique approach to sex and relationship issues in the 1990s. Geoff Lamb explores the model 's historical context; offers a comparison with other contemporary approaches, both mainstream and alternative; describes the model and its application in detail; and looks at future directions for this innovative work. While Poppeliers ' approach to psychosexual therapy is radical, Geoff 's book emphasises and goes beyond this, taking a controversial stance on such topics as sexuality and religion, psychotherapy and science, and the position of both psychotherapy and psychosexual therapy in today 's society. Sexual Grounding Therapy explores how people 's needs at each stage of their lifelong psychosexual development relate to any current sex and relationship problems they may be experiencing. It will be invaluable, not only to professionals - counsellors, psychotherapists and others whose work involves sex and relationships - but also to readers who are interested in exploring their own self-development and relationships from a historical, social and family perspective.

Exploring the Selfie Apr 24 2022 This volume explores the selfie not only as a specific photographic practice that is deeply rooted in digital culture, but also how it is understood in relation to other media of self-portrayal. Unlike the public debate about the dangers of 'selfie-narcissism', this anthology discusses what the practice of taking and sharing selfies can tell us about media culture today: can the selfie be critiqued as an image or rather as a social practice? What are the technological conditions of this form of vernacular photography? By gathering articles from the fields of media studies; art history; cultural studies; visual studies; philosophy; sociology and ethnography, this book provides a media archaeological perspective that highlights the relevance of the selfie as a stereotypical as well as creative practice of dealing with ourselves in relation to technology.
