Jupiter's Travels Sep 17 2021 Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGreggor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of Riding Home and The Gypsy in Me.

Catalog of British Motorcycles Nov 07 2020 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide.
